Counting Area vol.2
Area is the size of a surface. You count one square piece as 1 square unit, one triangle piece as 1/2 square unit.

1/2   +   1/2   =   1 square unit

1. Make a triangle shape using 1 square piece and 2 triangle pieces.

How many square units is the triagle?

☐ square units

2. Make a triangle shape using 6 square pieces and 4 triangle pieces.

3. Make a rectangle shape using 8 square pieces.
The area of the triangle shape is ☐ square units

The area of the rectangle shape is ☐ square units

These are (same / different) shapes with
(same / different) sizes.

★ Make any shape you like and count its area.

The area of the shape I made is ☐ square units
